Introducing the Eco Kingsley

Introducing our brand new first of its kind 'Eco Friendly' Widebeam boat. Based on our best selling Kingsley range, and incorporating a number of bespoke design features unique to this boat. The main one of these is the lack of a conventional engine, instead the boat uses electric propulsion to turn the propeller. The batteries used for this are charged via a smart generator that kicks in when the charge goes below a certain level.

Additional Specification over Standard Kingsley

Layout

- Choice of several standard layouts plus bespoke design

EXTERIOR
